

MODEL 20 NEEDLE GUN

Model 20 Features and Specifications

Light-weight, shorter, no springs, and a short stroke makes this a great value for a medium priced dust free needlegun. Plenty of power to get the job done and the short 5/8" stroke controls excessive vibration. The in-line design allows the user to reach into those hard-to-get-at areas and around obstacles. Fewer needles (12) permits getting access into tight spots. This tool comes in three configurations.

130.034
Model 20 needle gun
(with dust shroud)

130.062
Model 20 needle gun
(inside corner with shroud)

130.120
Model 20 needle gun
