

DESCO PIPE SAW

RECIPROCATING PIPE SAW

Features

- Ergonomically designed to reduce operator fatigue while providing greater tool control and stabilization.
- Continuously variable stroke adjustment via electronic speed control for optimal cutting speed.
- Ideally suited for cutting pipes and profiles made of steel, cast iron, autoclaved aerated concrete, and plastics.
- Clamp and feed device available for profiles and pipes from 3.25 in to 24 in. Adjustable clamping devices permit mitre cuts up to 45° as well.
- Clamp device supports tool weight and is appropriate for use in a containment area or glove box.
- Especially suitable for sandwich material and layers of different materials.
- Chain extension available.

Technical Specifications:

Pipe capacity.....	3.25in to 24in
Power.....	110v, 750 Watts, 8ft cord
Stroke speed.....	100-350 spm
Stroke length.....	2-3/8in
Weight.....	14.1 lbs
